# Cost of Mobile Application Development

**270K Average Cost per Application**

# Explanation Behind The High Costs Of App Development

## Developer Cost

- Facebook, Google, Twitter, FitBit have teams of over **100** people working on a single mobile app
- Common to have between **3** and **10** people working on a single platform (iOS/Android) app
- Typical timeline for an initial project is between **4** to **6** months

## Build vs Buy

- Do I use my own team or contract labor?
- Retaining talent is hard!

A man in a dark suit and blue tie is holding a white smartphone. The background is dark with various digital icons floating around, including an envelope, a dollar sign, a shopping cart, a person icon, a laptop, a house, a cloud, a bar chart, and a globe. A large red arrow-shaped graphic points from the left towards the text.

By 2020, more than  $\frac{3}{4}$  of enterprises will have at least one mobile app development platform (madp) to accelerate their digital business transformation strategy.

# Cost of Mobile Developers

Type of Developer	Description	Average Hourly Cost
Basic / Intermediate IOS Developer	Capable of Obj. C & Swift	\$250-300+
Basic / Intermediate Android Developer	Capable with Java & Android SDK	\$200- 250+
Xamarin Developer	Capable with C#, .NET framework, Xamarin and Visual Studio	\$175-200+
PhoneGap / Cordova Developer	HTML5, CSS & JavaScript. Frameworks like Backbone.js, Ionic, AngularJS. Knowledge of Android SDK and Swift	\$125+

# System of Engagement

Mobile  
Business  
Process

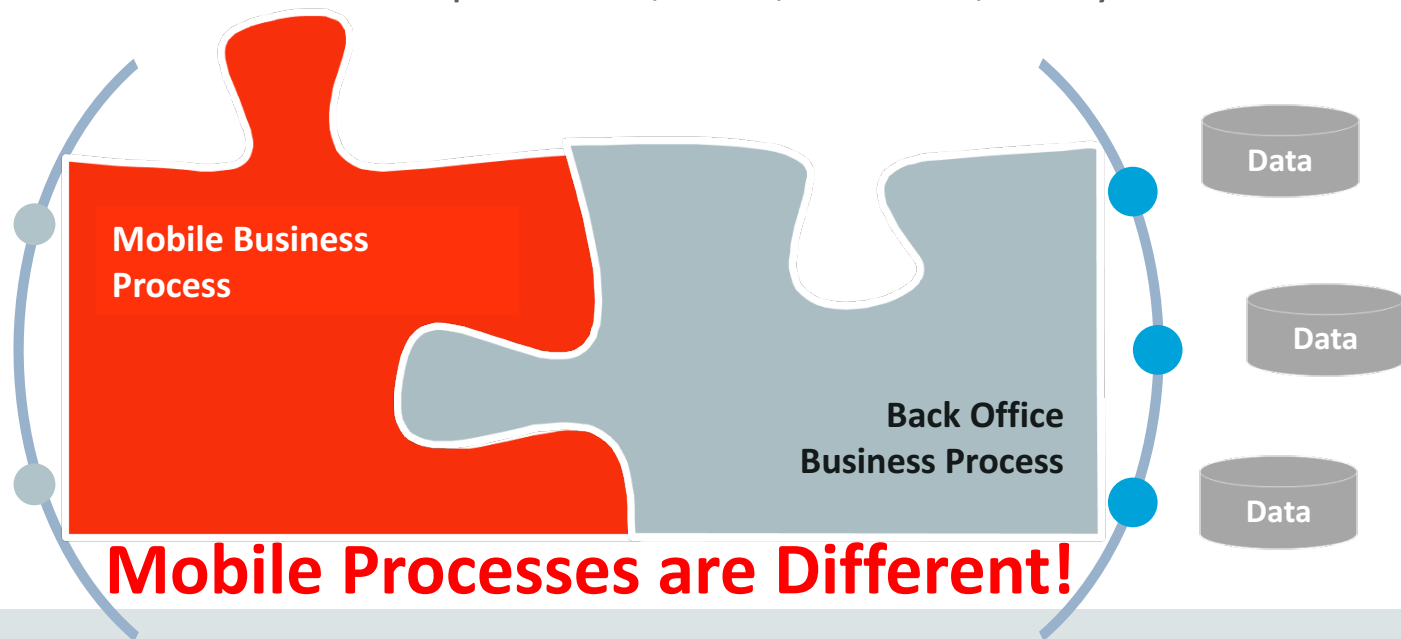

# Differentiate at the Edge of the Interaction

- Unique Rules & Requirements for each Industry & Vertical
- Unique Processes for each of our customers
- Spans multiple systems & services; Public and Private
- Require Real-Time Enhanced User Experiences; Push, Location, Analytics

**Mobile Worker**  
(Field Sales/Service)

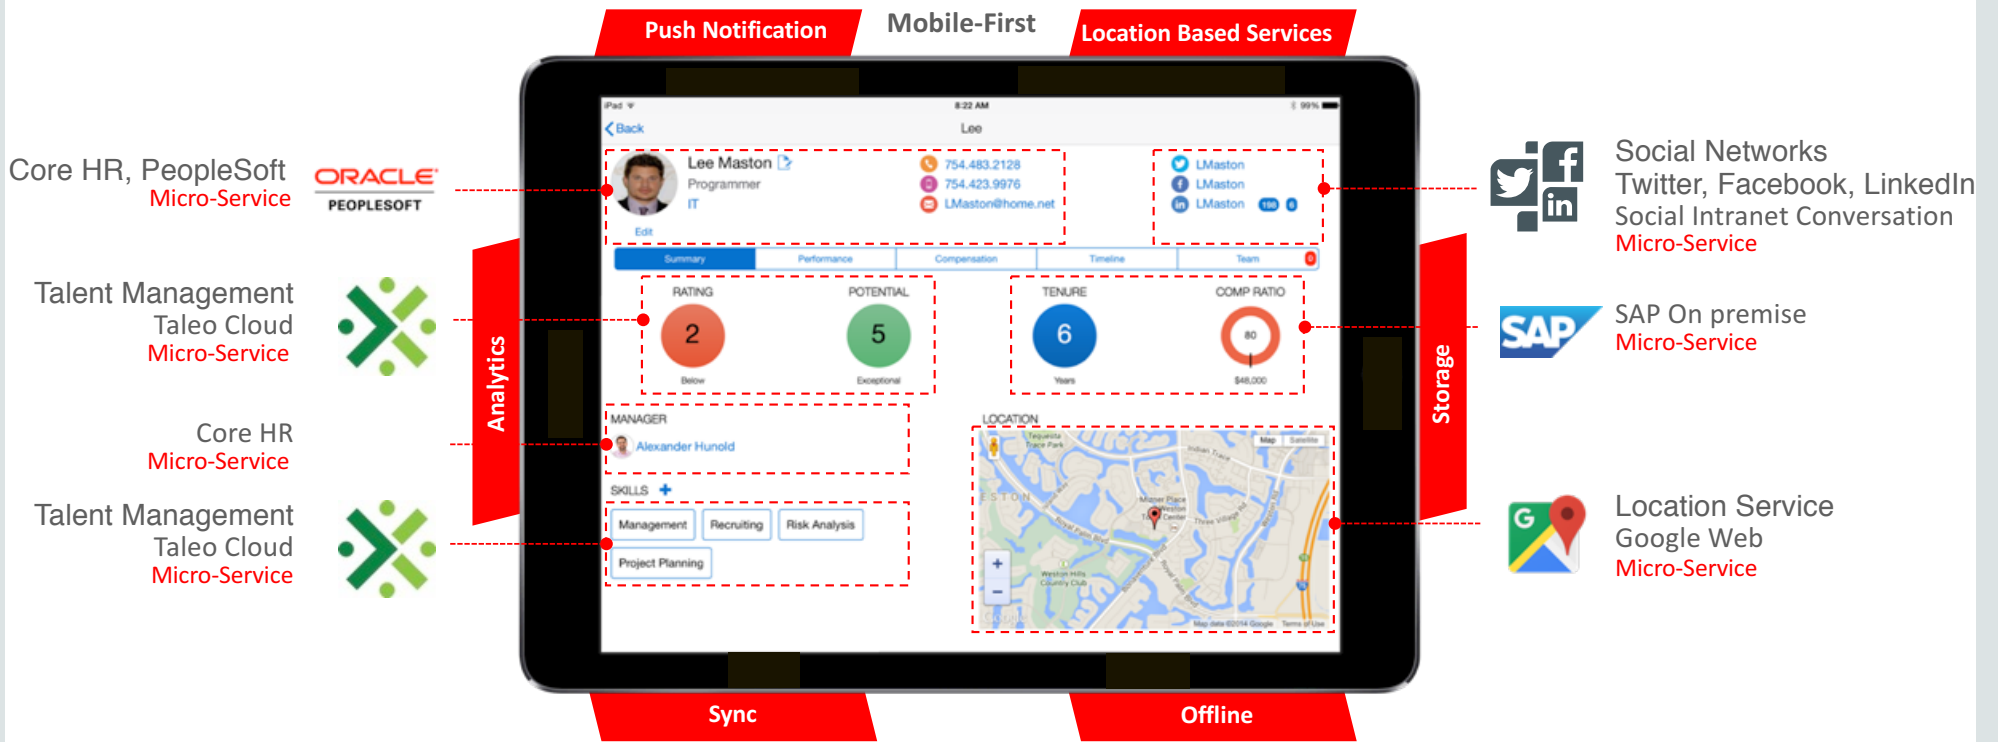

**Manager**  
(Approvals & KPI's)

**ORACLE**

# Mobile Requires multiple data sources

# By 2017, **50%** of today's deployed mobile enterprise apps will be completely **rewritten or replaced!**

**60%**

Apps are never downloaded

**1 in 4**

Discarded after one use.

**2/3**

Less than 1000 downloads first year

# DIGITAL TRANSFORMATION

- A fundamental change
- To drive revenue and efficiency
- Eliminate barriers
- New value chains and business opportunities
- Rather more complex - blurring digital and physical worlds
- Mobile Transformation is primary enabler

# ENTERPRISE MOBILITY JOURNEY

- Uncertainty on where to start
- Misidentification of requirements and the scope
- Short-sighted mobility focus based on a single app
- Complexities in vendor selection and management

**Mobile application projects are not completed on time and within the scope**

- Difficulty finding the right sourcing strategy (in-house vs. outsourced)
- Business know-how transfer to third parties
- Standardization and management issues across different sources for different apps

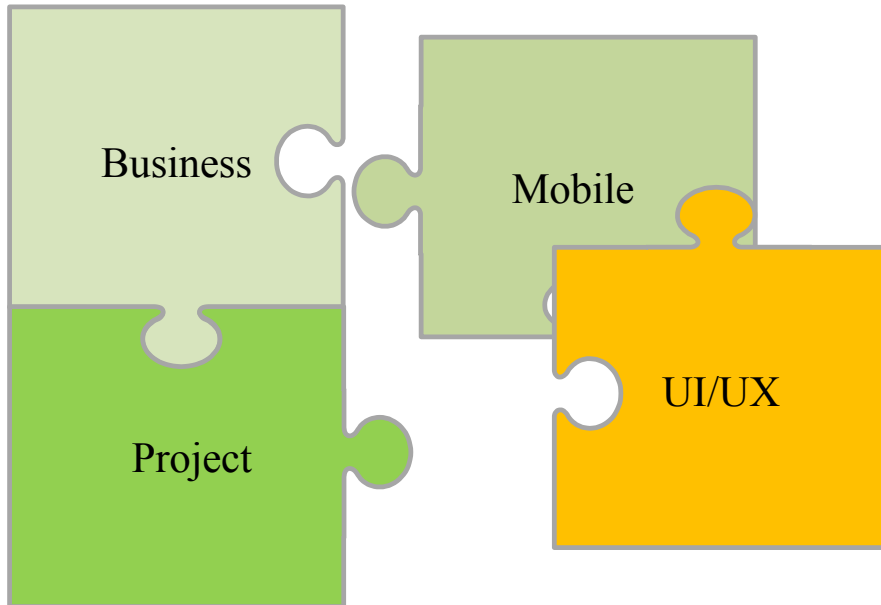

**Exploration of the enterprise mobility world may have a high learning cost**

- Working with a high number of developers for multiple apps for multiple platforms
- High app maintenance and management costs
- The need for supporting multiple versions of the apps in the stores

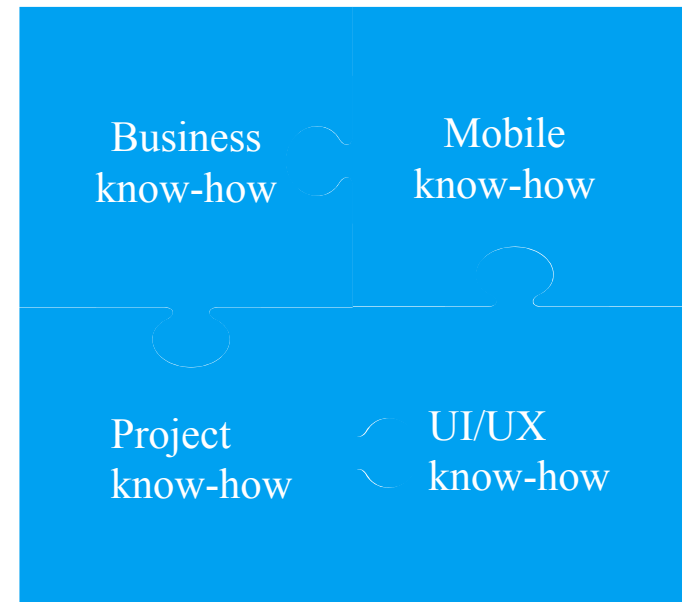

**As the number of apps increase, productivity decreases due to management complexities**

# SUCCESSFUL MOBILE TRANSFORMATION

- These processes cannot be considered alone
- Fusing these processes is the way to go to ensure high quality apps that work well both in frontend and backend as well as being delivered on time, within budget

A mobile app cannot be successful even if just a piece is missing or misplaced. It is eventually rejected by users

A successful mobile app (some seams might be slightly visible and that is fine for agility)

## OBSTACLES ON YOUR JOURNEY - 1

- High Level:
  - Collaboration and sharing
  - Organizational knowledge
  - Standardization
  - Dependencies
  - Integration efforts

## OBSTACLES ON YOUR JOURNEY - 2

- Technical/More Specific:
  - Development
  - Certification Management
  - Testing Distribution/Automation
  - Store Submission Processes
  - iOS specific Update Processes

## OBSTACLES ON YOUR JOURNEY - 3

- Technical/More Specific – Cont.’ed:
  - B2B and B2E App Distribution
  - Version Management
  - Tracking and Monitoring

# MOBILE APPLICATION DEVELOPMENT APPROACHES

Platform Based Native	Cross-Platform Native	Cross-Platform Hybrid	App Makers / Rapid Tools	Mobile Web HTML 5	Mobile Friendly Website
<ul style="list-style-type: none"> <li>- iOS Xcode (Desktop IDE)</li> <li>- Android SDK (Desktop IDE)</li> <li>- MS Visual Studio (Desktop IDE)</li> </ul>	<ul style="list-style-type: none"> <li>- Smartface (Cloud IDE)</li> <li>- Appcelerator (Desktop IDE)</li> <li>- React Native (No IDE)</li> <li>- Xamarin (Desktop IDE)</li> </ul>	<ul style="list-style-type: none"> <li>- Oracle MAF</li> <li>- Adobe Phonegap</li> <li>- IBM MobileFirst</li> <li>- SAP SMP</li> <li>- Intel XDK</li> <li>- Ionic Framework</li> </ul>	<ul style="list-style-type: none"> <li>- Oracle MAX</li> <li>- Como</li> <li>- AppMakr</li> <li>- Appy Pie</li> <li>- AppMachine</li> <li>- Capriza</li> <li>- Outsystems</li> </ul>	<ul style="list-style-type: none"> <li>- Oracle JET</li> <li>- JQuery Mobile</li> <li>- Sencha Touch</li> <li>- Kendo UI</li> <li>- SAP UI5</li> </ul>	<ul style="list-style-type: none"> <li>Responsive Design</li> <li>Mobile Web Design</li> </ul>
Native Tech.		Hybrid Tech.	Native/Hybrid Tech.	Web Tech.	

# DEVELOPMENT VS. MAINTENANCE

- Development vs Maintenance Efforts

**Mobile App Developed – 100 Units**

**Year 1 –  
Maintenance  
60– 80 Units**

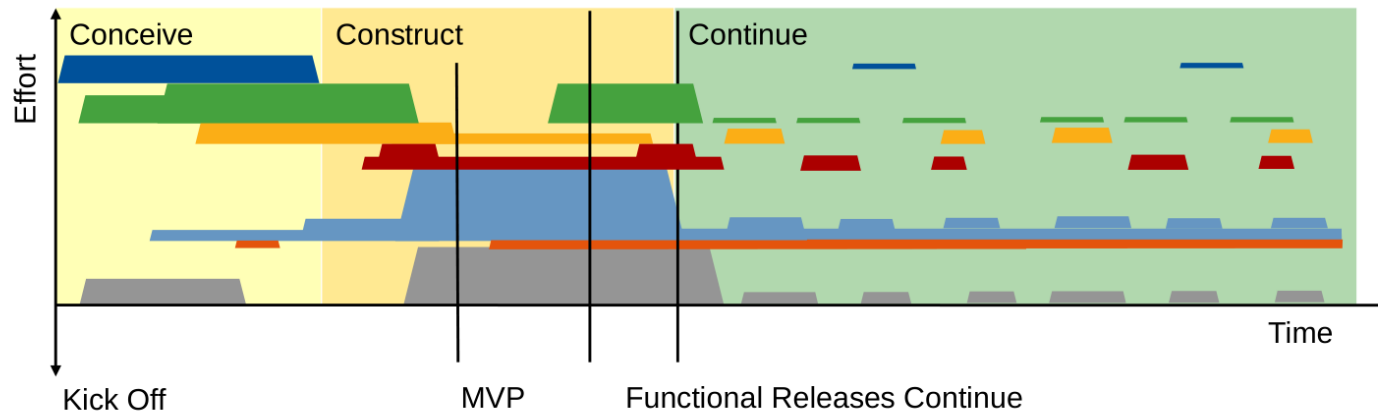

**Year 2 –  
Maintenance  
60– 80 Units**

**Year 3 –  
Maintenance  
60– 80 Units**

**Total 180 % to 240 % of  
the initial effort  
throughout  
the life of a mobile app!**

# MOBILE APPLICATION DEVELOPMENT

■ Research, Insight, Ideation

■ Process

■ UX

■ Development

■ Monitoring and Analytics

■ Integration

■ Test

- Think in product terms
- Start small with an MVP
- Functional quality & Application quantity
- Focus on experiences
- Cross-platform is the key

## THE SOLUTION: ENTERPRISE MOBILITY PLATFORMS

By 2020, more than 75% of enterprises will have adopted at least one mobile app development platform to accelerate their digital business transformation strategy, up from approximately 33% in 2015.

# MOBILE APPLICATION DEVELOPMENT PLATFORMS

	 Smartface	 Xamarin	 kony	 React Native	 ionic
<b>Platform Focus</b>	<b>Enterprise</b>	Community	<b>Enterprise</b>	Community	Community
<b>Lifecycle Management</b>	<b>Yes</b>	Partially	<b>Yes</b>	No	No

# SHORT DEMO

Smartface

[Development](#)
[Testing](#)
[Deployment](#)
[Distribution](#)
[Management](#)

**Dashboard**

**Development**

[Cloud IDE with Visual Design Editor](#)  
Design and develop native iOS and Android apps just with JavaScript knowledge with a full WYSIWYG editor and a cloud IDE right in your browser. No downloads or configuration needed.

**Testing**

[Testing Distribution](#)  
Streamline testing and version management processes.

[Testing Automation](#)  
Automated testing of your apps in the cloud.

**Deployment**

[Cloud Build](#)  
Direct APK and IPA output from the cloud, no need for a Mac for app publishing.

[Submit to Store](#)  
Submit your apps directly to the stores from the cloud.

**Distribution**

[Single Link Distribution](#)  
Single, shortened link and QR Code for multiplatform store URLs with URL scheme and intent support.

[Enterprise App Store](#)  
In-house, enterprise-specific app store to provide access to in-house apps with authentication and custom domain support.

**Management**

[Remote App Update](#)  
Update native apps remotely without resubmitting to the stores.

[Mobile Application Management](#)  
Enterprise-grade security and protection for your apps with app-level VPN and security policies.

[Marketplace](#)  
Get plugins to extend Smartface apps with native Java or Objective-C code and SDKs.

**Account**

[Profile](#)

[Password](#)

[Team](#)

[Subscription](#)

[University](#)

## CONCLUSIONS

- *Efficiency gain*
- *Development time*
- *Cost reduction*
- *Maintenance*
- *Standardization*
- *Mobility know-how*
- *Internal IT/Development Resources*

# Thank You

This was just an introduction

The great world of mobility awaits you to explore it!
